Vendor: Microsoft

Exam Code: MB7-842

Exam Name: Microsoft Dynamics NAV 2009 Trade and Inventory

Version: DEMO

1: During sales order entry, an order processor selects an item, location, and quantity. What happens in Microsoft Dynamics NAV 2009 when an insufficient quantity of the item is at the specified location? Choose the 2 that apply.

A.To prevent negative inventory quantities, the user is not able to save the line for the quantity specified.

B.A Warning Icon displays on the sales line, indicating that there is insufficient Quantity on Hand for the item at the selected location.

C.The Sales Line Details Fact Box displays the quantity available for the item and selected location, resulting in a negative number.

D.If the Stockout Warning check box is selected in Sales & Receivables Setup, a Stockout Warning displays.

Correct Answers: C D

2: You are the consultant on a Microsoft Dynamics NAV 2009 implementation. You have determined through discussions that your client offers a customer an invoice discount of 2% when the total invoice amount exceeds 20,000 LCY. What setup do you advise your client to complete in Microsoft Dynamics NAV to accommodate the discount? Choose the 2 that apply.

A.On the Invoicing FastTab of the Customer Card, leave the default selection for the Invoice Discount Code.

B.On the Cust. Invoice Discounts page for the Customer Card, enter a line with Currency Code equal to blank, Minimum Amount of 20,000, and Discount% of 2.

C.On the Invoicing FastTab of the Customer Card, assign the relevant Customer Discount Group.

D.On the Invoicing FastTab of the Customer Card, select the Manually Calculate Invoice Discounts check box.

Correct Answers: A B

3: What setup is necessary to implement a special sales price for a specific customer?

A.Create a record specifying a sales price for the customer in the Sales Price page.

B.Assign the customer to a Customer Price Group, then set up a special price for the group.

C.Create a record specifying the sales price for the customer in the Customer Item Catalog.

D.Update the price information on the Item Card.

Correct Answers: A

4: When you enter a Sales Quote and the customer decides not to place the order, what feature might you select to store the Sales Quote for future reference?

A.Store Quote

B.Make Customer Copy

C.Archive Document

D.Save to History

Correct Answers: C

5: When you use Sales Orders and Sales Blanket Orders, the related documents are linked to one another by their document numbers. What options are available for establishing links between Sales Orders and Sales Blanket Orders? Choose the 2 that apply.

A.When a Sales Order is entered directly, enter the Sales Order number in the Sales Order No. field on the related Sales Blanket Order line.

B.When a Sales Order is created using the Make Order action, the Sales Blanket Order number and line number are copied to the Sales line.

C.When a Sales Order is entered directly, enter the Sales Blanket Order number in the Sales Blanket Order No. field on the related sales line.

D.When a Sales Order is entered directly, enter the Sales Blanket Order number in the Sales Blanket Order No. field on the sales header.

Correct Answers: B C

6: You are the consultant on a Microsoft Dynamics NAV 2009 implementation. Your client is completing tests of the sales order entry process; they enter a sales line quantity of 225 units. According to an agreement with their customer, your client intends to post a partial shipment of 100 units and an invoice of 50 units for the sales line. Your client is unsure what amounts should display in the Quantity to Ship, Quantity Shipped, Quantity to Invoice, and Quantity Invoiced fields prior to posting the sales line. What amounts should display in the fields?

A.Quantity to Ship = 0; Quantity Shipped = 100;   Quantity to Invoice = 0; Quantity Invoiced = 50

B.Quantity to Ship = 100; Quantity Shipped = 0; Quantity to Invoice = 50; Quantity Invoiced = 0

C.Quantity to Ship = 100; Quantity Shipped = 100; Quantity to Invoice = 50; Quantity Invoiced = 50

D.Quantity to Ship = 125; Quantity Shipped = 100; Quantity to Invoice = 175; Quantity Invoiced = 50

Correct Answers: B

7: You are the consultant on a Microsoft Dynamics NAV 2009 implementation. Your client has posted several shipments to a customer from multiple Sales Orders. All the lines on the Sales Orders are completely shipped, which means no quantities are remaining to ship. Your client would like to prepare a single invoice for the related shipments. What information do you provide to your client to assist in creating the Sales Invoice and closing the Sales Orders? Choose the 2 that apply.

A.From a Sales Invoice, use the Get Orders function and select all of the Sales Orders.

B.From a Sales Invoice, use the Get Shipment Lines function and select all of the sales lines.

C.After you post the Sales Invoice for the shipments, the associated Sales Orders are deleted automatically.

D.After you post the Sales Invoice for the shipments using the Combine Shipments batch routine, delete the Sales Orders manually or by using the Delete Invoiced Sales Orders batch job.

Correct Answers: B D

8: You are the consultant on a Microsoft Dynamics NAV 2009 implementation. You have completed a demonstration of posting shipments from Sales Orders. During the related discussion, your client indicates that his or her current process has the Quantity to Ship field default to blank and then requires the user to enter the actual quantity shipped. The client asks you how Microsoft Dynamics NAV 2009 can meet this requirement. What advice do you give your client?

A.Make a programming change to default the Quantity to Ship to blank on Sales Order lines.

B.Modify the current process so that users are required to only update lines where quantities are shipped incomplete.

C.In the Default Quantity to Ship field on the Shipping FastTab of the Sales Order, select the option for 'blank'.

D.In the Default Quantity to Ship field on the Sales & Receivables Setup page, select the option for 'blank'.

Correct Answers: D

9: You are the consultant on a Microsoft Dynamics NAV 2009 implementation. Your client wants to set up special pricing for their commercial customers. They have already set up a Customer Price Group named COMMERCIAL. What additional setup steps do you provide to your client to satisfy their pricing requirement? Choose the 2 that apply.

A.Select the Use Customer Price Groups check box in Sales and Receivables Setup.

B.Assign the COMMERCIAL Customer Price Group on the Invoicing FastTab of the appropriate Customer Cards.

C.Enter the percentage discount for the COMMERCIAL Customer Price Group in the Sales Prices page.

D.Add lines to the Sales Prices page for the COMMERCIAL Customer Price Group with the appropriate Item, Unit of Measure, Quantity, and Unit Price.

Correct Answers: B D

10: Which batch job can be used to raise the unit price on all items by 10%?

A.Implement Price Change

B.Post Inventory Cost to G/L

C.Adjust Cost - Item Entries

D.Adjust Item Cost/Prices

Correct Answers: D

11: You are the consultant on a Microsoft Dynamics NAV 2009 implementation. As part of a review of business requirements, you are discussing purchase discounts with your client. You determine that your client offers line discounts. In addition, your client posts the discount amounts to separate general ledger accounts. What setup is required to use line discounts and post them separately from purchases? Choose the 2 that apply.

A.In the Payment Disc. fields on the Exam Code Posting Groups page, select an account from the Chart of Accounts.

B.In the Purchase Line Disc. Account field of the General Posting Setup page, select an account from the Chart of Accounts.

C.On the General FastTab of the Purchases & Payables Setup page, select Line Discounts in the Discount Posting field.

D.On the General FastTab of the Purchases & Payables Setup page, select the Post Line Discounts check box.

Correct Answers: B C

12: An Item Card is set up with a Purchase Unit of Measure of Each and a Last Direct Cost of 30.00.

For the same item, a vendor has the Purchase Prices page set up as follows:

Line 1

        Unit of Measure   Each

        Minimum Quantity   10

        Direct Unit Cost   28.00

        Starting Date   02/15/09

Line 2

        Unit of Measure   Each

        Minimum Quantity   10

        Direct Unit cost   27.00

        Starting Date   02/15/10

Line 3

        Unit of Measure   Each

        Minimum Quantity   15

        Direct Unit Cost   25.00

        Starting Date   02/15/10

A Purchase Order is entered with an Order Date of 02/18/10; a line is added for the item with a Quantity of 10 and a Unit of Measure of Each.

On the Purchase Order line, what price is suggested by Microsoft Dynamics NAV 2009 for the item?

A.25.00

B.27.00

C.28.00

D.30.00

Correct Answers: B

13: What functions are available from the Actions menu on a Requisition Worksheet? Choose the 3 that apply.

A.Calculate Plan

B.Make Orders

C.Drop Shipment, Get Sales Orders

D.Carry Out Action Message

Correct Answers: A C D

14: When suggesting a price (cost) on a purchase line, the program uses the Best Price principle. What is the definition of Best Price?

A.The lowest possible price on the order date.

B.The lowest possible price with the highest possible invoice discount on the order date.

C.The lowest possible price with the highest possible line discount on the order date.

D.The lowest possible price with the highest possible line and invoice discount on the order date.

Correct Answers: C

15: What field on a Purchase Order line determines whether the Receipt Date and Quantity fields can be updated automatically by the planning system?

A.Freeze Line

B.Released

C.Planning Flexibility

D.Blocked

Correct Answers: C
